

G6PD Operations Research Community of Practice (GORCoP)

Advancing safe access to radical cure through G6PD diagnostics operations research

G6PD Operations Research Community of Practice (GORCoP):

1

Opportunity

Several G6PD diagnostics are available and in the pipeline with the potential to expand access to safe radical cure

2

Learning

The Community of Practice seeks to understand the transitions that health systems will need to undergo and share best practices for G6PD introduction and scale-up

3

Collaboration

The Community of Practice supports information-sharing and benefits from the diverse expertise of participants in areas such as diagnostic introduction, operations research, and quality assurance

WHO WE ARE:

**A Global Community
of Practice**

- **90+ participants**
- **15+ countries represented**
- **30+ organizations engaged**

Sharing best practices, lessons learned, resources, and expertise:

Quarterly Webinars

- Recorded for on-demand viewing: CareStart™ G6PD training experiences
- Introduction to quality assurance and control
- Upcoming: Counselling and ethics

Digital Repository

- STANDARD™ G6PD training videos
- STANDARD™ G6PD user proficiency assessment
- Recorded webinars
- Adding new resources
